

YOUR PURCHASING MANAGER
EVERYTHING FOR
THE INDUSTRIAL NEEDS

SPARE PARTS AND COMPONENTS – SIMPLE ORDER AND QUICK SUPPLY

Traydon GmbH based in Frechen, near Cologne, is one of the leading European suppliers of the industrial spare parts and components. Whenever it comes to the replacement of parts or the installation of components, we are always there for you. Besides, we see ourselves not as a pure supplier, but we offer you complete solutions from searching the product up to the whole logistics organization.

We have a widely diversified product range which covers such areas as hydraulics, pneumatics, electrics, electronics and mechanics. But we can supply complete motors, gears, control systems, conveyor systems and pumps as well. We will be also pleased to place your orders for supply of parts according to drawing from different materials.

ADVANTAGES & BENEFITS

Traydon provides you with a qualified partner for purchase and supply of the industrial spare parts and components. We provide you with different services ranging from searching the desired product and market monitoring up to logistics organization from a single source. Our experts always know where on Earth to find and order the desired product fairly priced and with on-time delivery.

With us as a partner you will gain different benefits:

- Expert knowledge in all the relevant groups of products and materials. Excellent procurement-know-how and expertise in current market development.
- Establishment of new qualified procurement sources and development of new international procurement markets.
- Quickness, reliability and competence in the order processing ranging from order placement up to delivery.
- Excellent customer service before, during and after the sale. Complete solutions for the industrial maintenance.
- Employment and process costs saving in the field of purchasing. The change of fixed costs into variable costs.

WE PURCHASE FOR YOU...

... to be able to focus on your core business.

In practice we create an external purchase department for your company, take over the cost optimization and find out the best value for money. At this, we use not only our international experience, but the skills and know-hows of our specialists who monitor all the market movements in all the relevant fields as well.

With us as a partner you don't only benefit from our profound industry knowledge, but you can also focus on your core business. This provides you with more entrepreneurial flexibility. In addition, our customers rely on our know-hows to avoid undesirable machine shutdown and production downtime in case of a defect.

Please think of us as a sort of wholesale that is profitable even in small volumes and offers permanent fair conditions, high-class quality and customized solutions ranging from purchase to supply.
